To Whom It May Concern:

Re: "Comparison of Eye Movement Desensitization Reprocessing and Cognitive Behavioral Therapy as Adjunctive Treatments for Recurrent Depression: The European Depression EMDR Network (EDEN) Randomized Controlled Trial"

We are pleased to inform you that the above study (and team of researchers) has been selected by the EMDRIA Board of Directors to receive EMDRIA's Outstanding Research Award for 2018. Congratulations! This honor goes to a researcher(s) who has (have) completed published studies that have significantly advanced the knowledge base of EMDR therapy. You were selected because of the important EMDR research that you have led, conducted, and published.

The award will be presented at the 2018 EMDRIA Conference being held October 4 – 7, at the Hilton Atlanta Downtown Hotel in Atlanta, GA. As an award recipient, a member of your team is entitled to represent the team and to complimentary registration to attend the Conference.

Again, congratulations on being selected for the Outstanding Research Award, which clearly reflects the commitment and dedication you have demonstrated to EMDR research. We look forward to seeing you in Atlanta.

Very truly yours,

Carol Martin, MSW, LCSW
Chair, Leadership Committee
